

Según la IA, un influencer puede referirse tanto a una persona con credibilidad y capacidad de influencia en redes sociales como a personajes digitales generados por inteligencia artificial (IA) que simulan el comportamiento humano para promocionar productos e interactuar con audiencias. Un influencer aporta conexión emocional y empatía genuina, compartiendo experiencias personales y estableciendo relaciones auténticas con su público. Con ese mismo espíritu nace la colección Influencer de Rodríguez Bonilla, creando nuevas tendencias y estilos de vida, en espacios cada vez más versátiles y sofisticados, en donde conectarte e interactuar con tus emociones.
